SAE Net Horsepower: 268 HP (200 kW)
Operating Weight: 82,400 lbs. (37,400 kg)
Digging Depth: 24 ft 1 in (7.34 m)
Link-Belt X4 Series excavators are built to exceed your expectations. We redesigned the control spools and incorporated spool stroke control (SSC) functions into the hydraulic system to reduce pressure loss and distribute hydraulic oil more smoothly, improving cycle times by up to 8%. Expect more power and fuel efficiency, thanks to an innovative Final Tier 4 engine that delivers up to 8% improved fuel efficiency, without a Diesel Particulate Filter (DPF) to maintain or replace! Settle in to the roomiest, most accommodating cab in its class, with more legroom and a new high-back, heated seat for shift-long comfort. Daily maintenance is a snap, with ground-level access to all service points, easily opened by hand.
• Three power modes (Speed Priority, Heavy and Applied Power) let you choose the best blend of power, precision and fuel savings for the work you’re doing

• EPA Final Tier 4 engine is fuel efficient without sacrificing power

• No DPF to ever worry about!

• 2-3% DEF (Diesel Exhaust Fluid) consumption rate relative to fuel consumption, combined with one of the largest DEF tank capacities lets you work long hours between refills

• Ground level access to routine service points lets you cut daily maintenance down to just minutes

• Quiet, pressurized cab offers excellent visibility and comfortable, best-in-class seating

• Enough floor space to accommodate the largest of work boots, with cup holders and roomy storage compartments for cell phones, snacks and other personal items

• Dual cab working lights are standard, or choose optional LEDs for added visibility

• Ergonomic joysticks fit your hand perfectly

• 7” high-definition LCD monitor keeps you connected to your machine and work environment

• RemoteCARE® telematics keeps a watchful eye on performance, maintenance intervals and theft deterrence

• Full-time, rear-view camera display is standard; add the WAVES™ option for a seamless 270° view around the machine

• Structural improvements to the boom and arm reduce stress and provide greater durability

• Robust undercarriage features larger track rollers and thicker plating for longer life

• Unique side-frame design reduces dirt accumulation and is easier to clean

*All improvements and percentage increases are in reference to Link-Belt X3 Series excavators, unless otherwise stated
Quick and Responsive to Take On Tough Challenges
Greater digging power and increased lift capacities are the result of our innovative Spool Stroke Control (SSC) system, which reduces pressure loss and distributes hydraulic oil more smoothly. Pilot pressure sensors detect the type of work being done—such as digging or leveling—and then relays that data to proportional solenoid valves that quickly determine where optimal hydraulic pressures should be directed for that operation.

Two electronically-controlled Kawasaki variable-displacement axial-piston pumps and one Kawasaki gear pump assure that hydraulic power is delivered precisely when and where it’s needed. At the same time, hydraulic flows in noncritical areas of the system are reduced.

The result is better breakout force, more lifting strength and faster machine response. You’ll dig, swing and dump quicker than ever before... with up to 8% faster cycle times and improved fuel efficiency!

- Proprietary hydraulic system
- New control valve with larger ports; less restriction means improved hydraulic flow for increased performance
- Electronically-controlled pumps for improved cycle times, quicker response and more efficient machine operation
- Move more dirt per gallon of fuel
The X4 Series features innovative EPA-certified Final Tier 4 engines from Isuzu that strike the ultimate balance between power, productivity and fuel efficiency. You’ll experience up to 8% improved fuel efficiency, without having to worry about costly diesel particulate filters (DPF) to maintain or replace. Three engine modes provide reliable power and control for any machine application. Choose Speed Priority (SP mode) to get jobs done quickly, Heavy (H mode) for the best blend of power and fuel savings or Applied Power (A mode), with 13 different RPM settings for precise control of heavy lifting, fine grading or leveling work.

- EPA-certified Tier 4 Final
- No DPF to maintain
- Up to 8% improved fuel economy
- 500-hr. fuel filters service intervals
- 8 diesel tank refills per 1 diesel exhaust fluid (DEF) refill
- 2-3% DEF consumption rate
- Two-stage DEF anti-freeze system for protection in harsh operating conditions
- 30 hrs. between auto SCR regenerations, only takes 5-8 minutes to complete!
- VGT (Variable Geometry Turbocharger)
Power and Efficiency
Without Compromise
The X4 Series offers one of the most advanced and roomiest cabs in its class. Comfortable, automotive-grade high-back seat with head rest provides superior lumbar back support. With a longer and wider seating surface, it reclines to a 155° maximum reclining angle to create a relaxed environment during breaks. Air-suspension seat is standard with tilting adjustment and seat heaters available as options.

The cab layout also includes ergonomically-designed arm rests that move with console, maintaining a constant distance between joysticks and arm rests no matter how the seat is adjusted.

- Quiet, pressurized cab
- Joysticks with easy-to-hold grip and switches
- Handy 'radio mute' and one touch wiper switch
- Optional proportional joysticks w/auxiliary hydraulics control
- Cup holder and storage areas for cell phones and other small items
- Dual halogen cab lights standard
- Full time rear camera display
- Optional RH & LH side cameras
- ROPS and FOPS Level 1 certified, optional FOPS Level 2 head guard available
- Optional LED lights use less energy and are 3X brighter!
- Optional retractable rear window shade
- Optional front sun visor
- Improved radio with USB port and Bluetooth for hands-free communication.
High-Definition LCD monitor has a full-color 7” display that rivals the resolution found in luxury automobiles. Controls are easy to read and easy to use. The rear-view camera activates automatically whenever the machine is started, and sight guidelines have been added for increased safety.

- Anti-glare coating on screen
- Track up to 14 service maintenance reminders
- System/machine warning messages
- Easy-to-use auto idle and auto shutdown feature
- Select and set up attachments: 5 presets for breakers; 5 presets for crushers
- In-cab flow and pressure controls for auxiliary hydraulics
- Anti-theft system
- Auto-adjusts for time and calendar
- 24 languages available
- Ability to view fuel consumption

For the ultimate in visibility, X4 machines can be fitted with the Wide Angle Visual Enhancement System - or WAVES for short. Using three closed-circuit cameras, this optional viewing system provides an unbelievable 270° visual coverage around the machine, eliminating any potential blind spots from the operator’s line of sight. WAVES images can be displayed on the standard X4 monitor.
Maintenance is a snap, with ground level access to all routine service points, including batteries, fuel filters, engine oil filter, dual-element air filter and cab fresh air filter.

- Radiator screens are easy to remove and clean from ground level...no tools needed!
- A/C Condenser tilts for easy cleaning and maintenance
- Easy battery compartment access: 2 hand-turn knobs
- Improved battery disconnect switch with no keys needed
- Convenient ground-level sample ports in pump compartment
- Green drain plug and hose
- More data collection points

- Automatic door locking mechanism on side door
- Quick and easy access to grease all attachment pivot points
- Grease cylinder track adjusters make adjusting track tension a breeze
- New undercarriage side frame design enables easier cleaning
- In-cab reminders track 14 different maintenance procedures
RemoteCARE® lets you remotely monitor and track machine location, operational performance, working status and periodic maintenance requirements - now at no cost to you. It tracks and records both routine and major service intervals for your machines, giving you more flexibility and control when scheduling maintenance procedures. It also lets you be more proactive if potential failure conditions arise; whenever a diagnostic trouble code (DTC) is detected, a warning message appears on the machine display, and an e-mail alert is automatically sent to you. RemoteCARE also assists in theft prevention by offering 24/7 surveillance and geofencing capabilities.

**FREE Subscription Includes:**

- ✔ 24/7 Remote Monitoring and Security
- ✔ Machine Location
- ✔ Geo-fence & Curfew Range
- ✔ Actual Fuel Consumption
- ✔ Fuel Levels
- ✔ Hour Meter Reading
- ✔ Radiator Water Temperature
- ✔ Machine Working Time/Idle Time
- ✔ Attachment Working Hours
- ✔ Working Modes
- ✔ Service Maintenance Reminders
- ✔ Service Warnings

Manage your Link-Belt equipment with this user friendly telematics management tool with GPS technology. The RemoteCARE App provides timely and reliable machine utilization – as well as assisting in DTC notifications. With RemoteCARE you will be able to remotely monitor and track your machine’s location, operational performance, and working status. Contact your local Link-Belt dealer for questions.

**App features include...**

- Machine location
- Fuel consumption
- Utilization report
- Fuel efficiency
- Analytical snapshots
- Idle rate
- DTC notification history
- Favorite list

Download Apple or Android app at lbcco.com/apps for phone and tablet.
X4 machines are more rugged and durable, with robust structural improvements to the boom & arm structures, along with improvements to lower frame and travel components.

**Built Strong to Handle Anything**

**Boom & Arm**
- Improved boss shapes reduce stress on boom and arm pin
- Cast boom tip for increased reliability

**Lowers**
- Thicker travel motor case - 28% increase
- 14% more stroke recoil spring
- 50% longer idler shoulder and hub
- Unique side-frame design reduces dirt accumulation and is easier to clean.

**Customer Support is Just a Call Away**

A network of Link-Belt Excavator dealers across the U.S. and Canada is waiting to serve you. Expect fast and dependable service, backed by 24/7 access to parts.

**Exceptional Warranty Coverage**

All X4 excavators purchased after July 1, 2020 are backed by a 5-year/5,000-hour Full Machine Warranty, 5-year/10,000-hour Structural Warranty, along with participation in the X4 Fluid Analysis Program for the duration of the warranty (free with all X4 machines). Extended warranty coverage packages are also available.

Contact your dealer for complete details.
Isuzu AQ-6HK1X Final Tier 4 turbocharged diesel engine with electronic control (ECM) and high pressure common-rail fuel injection, 6-cylinder, water-cooled, Exhaust Gas Recirculation (EGR), Intercooler, Variable-Geometry Turbocharger (VGT), Diesel Oxidation Catalyst (DOC) and Selective Catalytic Reduction (SCR) system with Dosing Control Module and heated DEF lines and tank. Electronic fuel pump and priming, Fuel cooler, Auto-idle start, Auto warm-up, EPF engine protection, dual-stage fuel filtration, remote oil filter, engine oil sample port, green plug oil drain, double element air filter.

SAE J 1349 net horsepower.............................................268 hp (200 kW) @ 1,900 rpm
Displacement ...................................................................................475 cu in (7.8 L)

**Dimensions**

**Machine equipped with:**

1. 10’ 8” (3.25 m) Arm
2. 8’ 8” (2.63 m) Arm
3. 13’ 3” (4.04 m) Arm
1. Lifting capacities shown should not be exceeded. Weight of all lifting accessories must be deducted from the above lifting capacities.

2. Lifting capacities are based on machine standing on firm, uniform supporting surface. User must make allowances for job conditions such as soft or uneven ground.

3. Lifting capacities shown do not exceed 75% of minimum tipping loads or 87% of hydraulic capacities. Capacities marked with an asterisk (*) are limited by hydraulic capacities.

4. Least stable position is over the side.

5. Operator should be fully acquainted with the Operator's Manual & Operating Safety Booklet, furnished by LBX before operating the machine.

6. Capacities apply only to the machine as originally manufactured and normally equipped by LBX Company, LLC.

7. Lift capacity ratings are based on ISO 10567, “Earthmoving Machinery - Hydraulic Excavators - Lift Capacity.”

### Standard & Optional Equipment

#### Standard Equipment

- Air Pre-Cleaner (Cyclone type)
- Auto Warm-Up System
- Auto-Idle
- Auto-Idle Engine Shutdown
- Battery Disconnect Switch
- Cooling Fan
- Diesel Oxidation Catalyst (DOC)
- Drain for Fuel Tank
- Dual Remote Fuel Filters with Water Separators
- EGR Coolers
- Emergency Engine Stop
- Engine Oil Sample Port
- Engine Protection Feature
- External Fuel Gauge
- External DEF Gauge
- Fan Housing
- Fuel Cooler
- Fuel Filter Restriction Indicator
- Fuel Management System
- Fuel Usage History
- Fuel Usage Monitor
- Glow Plug Pre-Heat
- Idle-Start
- Intercooler
- Neutral Start
- One-Touch Idle
- Radiator / Oil Cooler / Intercooler
- Protective Screen
- Remote Engine Oil Drain
- Remote Oil Filter
- Selective Catalytic Reduction (SCR)
- DEF Gauge on Monitor
- VG Turbocharger

#### Optional Equipment

- Electronically Controlled Hydraulic Pumps
- Fire Wall
- Free Swing
- Hydraulic Filter Restriction Indicator
- Hydraulic Oil Sample Port
- Long Life Hydraulic Oil (5,000 Hour)
- Neutral Pump De-Stroke
- Oil Cooler
- Power Boost
- Power Save
- Pressure Reading on Monitor
- Pump Stand-By Pressure
- Single Pedal Travel

- Rain Deflector
- 270° WAVES™ Camera System

### UNDERCARRIAGE

- 860 mm (33.9”) in 3-Bar Steel Grousers
- Carbody Belly Pan (Shield Guarding)
- Center Track Guide (single)
- Lashing Points (Tie-Downs)
- Long Undercarrage
- Sealed Link Chain
- Steps
- Strutted Track Chain
- X-Pattern Carbody

### UPPERSTRUCTURE

- Belly Peaks
- Center Cover (Over Main CV)
- Fuel Tank Belly Pan
- GID Guard Rails
- Lifting Eyes for Counterweight
- Lockable Fuel Cap and Service Doors
- Lockable Tool Box
- Work Lights (Boom and Tool Box)

### ATTACHMENT

- 21’ 2” (6.45 m) Main Boom Section
- Auxiliary Pipe Brackets
- Boom Work Light
- Chrome Fins
- HD Bucket Linkage
- Remote Lube Bank
- Teardrop Pin Retention Keepers

### UNDERCARRIAGE

- 600 mm (23.5”) in 3-Bar Steel Grousers
- 700 mm (27.5”) in 3-Bar Steel Grousers
- Center Track Guide (triple)

### UPPERSTRUCTURE

- Rubber Bumper Guards

### ATTACHMENT

- 8’ 8” (2.63 m) Short Arm
- 10’ 8” (3.25 m) Arm
- 13’ 3” (4.04 m) Arm

### ENGINE

- SCM Air-Suspension Seat with Tilt and Heater
- Refuel Pump
- Tropical Package
- Hose Burst Check Valve
- Proportional Hydraulic Controls

### HYDRAULICS

- 270° WAVES™ Camera System
- Cab Light [2 LED]
- Cab Sun Screen (rear)
- FOPS Head Guard (Level 2)
- Front Guard (Mesh)
- Front Guard (OPG 1, 2)
- LED Light Kit for Side Camera (1)
- LED Lights for Rear Cameras (2)
- Rain Deflector
- SCM Air-Suspension Seat with Tilt and Heater
