The LSG Series Scrap Grapple is a low-maintenance, high-capacity orange peel grapple designed for high volume scrap yard processing.

1. Heavy-duty guarding system completely protects cylinders and internal components, removes easily for internal maintenance access

2. Reverse-mounted cylinders protect rods from damage

3. Large bore hydraulic cylinders maximize clamping force

4. High-torque continuous 360° rotation for handling large and uneven loads

5. Large diameter hardened steel pins with integrated shear-proof pin retainers

6. Identical hardened steel bearings with dust seals at all pivot points

7. Long-life, abrasion-resistant steel tips are easily replaced with simple perimeter weld

8. All tine styles feature fully boxed construction for strength and durability

9. Overall footprint easily fits inside trailers

Applications
- Scrap Handling
- Construction and Demolition Sorting
- Bulk Material Handling

When it comes to scrap processing, volume and uptime are key. The LSG moves more scrap while matching your application and offering less maintenance, less downtime and lower overall costs.
# Dimensions & Weights

**Diagram Dimension** | Model | Capacity | Weight* | Minimum Machine Size | A | Jaw Open Width | Jaw Open Height | B | Jaw Closed Width | Jaw Closed Height | C | D | Footprint | E
